

SUM 2024 – 7th Symposium on Circular Economy and Urban Mining

SUM 2024 – 7th International Symposium on Circular Economy and Urban Mining is set to take place **from 15 to 17 May 2024** on the enchanting island of **Capri, Italy**.

The conference, organised biennially by IWWG-International Waste Working Group, represents the reference Forum for resource recovery from waste, where scientists and stakeholders from all around the globe can debate the most advanced results and focus on future needs.

SUM 2024 is endorsed by prestigious universities and relies on the active involvement of Scientific Committees comprising more than 60 scientists, coming from 28 different countries, spanning all disciplines related to Circular Economy.

The conference programme will feature hundreds of scientific presentations unfolding in parallel tracks of oral sessions, workshops, posters and many other engaging activities.

The Call for Papers is officially open!

All authors interested in presenting their work at SUM 2024 should submit their paper by using the [online submission form](#) no later than **4 March 2024**. Detailed instructions available on the official symposium website: <https://www.sumsymposium.it/en/call-for-papers>

The Symposium broadly covers all aspects of Circular Economy, including:

Concepts in saving, recovery and recycling of material resources / Prevention, minimisation and preparing for reuse / Sources and characterisation of valuable materials / Technologies for materials recovery and valorisation / Enhanced landfill mining / Quality control along recycling chain / Contaminants in Circular Economy and potential health impacts / Interaction between material flows in society and nature / Economic and financial aspects / Policies and legal aspects / Tools and instruments for assessment and evaluation / Education, communication, social and psychological aspects / Artificial intelligence and digital solutions for Circular Economy / Smart cities and Circular Economy / Waste architecture and urban space / Urban Mining and Circular Economy concepts in emerging and developing countries / Social and ecological models / Companies Forum.
