

Special Session 2: March 16, Time:10:30-12:00(UTC/GMT +11)

Mainstreaming Disaster Waste Management (DWM)

: DWM Guidelines in Asia and the Pacific

Organized by the Japan Society of Material Cycles and Waste Management

Registration *open for the public by online (for free)

<https://forms.gle/sAyAY5zaTJcug1Ku9>

We have witnessed various natural disasters in these years such as earthquakes, typhoons/hurricanes, and so on. Once a huge natural disaster happens, a tremendous amount of waste is generated. The proper treatment and management of such disaster waste, “Disaster Waste Management” is a critical issue for us.

In response to the risk of such disaster waste, several “guidelines for Disaster Waste Management” are developed in Asia and the Pacific. In this session, we invite persons in charge of these guidelines. These guidelines are best practices in Asia and the Pacific, and their backgrounds, targets, purposes, etc. are different from each other. From their experience, we will discuss “How we could mainstream Disaster Waste Management among other policies and issues”.

This session is supported by the Ministry of Environment, Japan.

Program

Session Chairs:

Ryo Tajima (National Institute for Environmental Studies)

Shintaro Higashi (NTT DATA INSTITUTE OF MANAGEMENT CONSULTING, Inc.)

10:30-10:35 Introduction

10:35-10:45 Keynote

Waste Management Plan and Guidelines against Disaster in Japan

The Ministry of Environment Japan (MOEJ)

10:45-11:30 Guidelines in Asia and the Pacific

- Pacific region: “Pacific Island Countries Regional Disaster Waste Management Guideline”

Japanese Technical Cooperation Project for Promotion of Regional Initiative on Solid Waste Management in Pacific Island Countries Phase II (J-PRISM II)

Mr. Faafetai Sagapolutele

- Indonesia: “Ministerial Regulation for Disaster Waste”

The Ministry of Environment and Forestry

- Philippines: “Guideline for Disaster Waste Management in Metro Manila”

Metro Manila Development Agency, Solid Waste Management Office

Mr. Jefferson Limjuco

11:30-12:00 Discussion

- Perspective to consider “Guideline for Disaster Waste Management”

Ryo Tajima (National Institute for Environmental Studies)

- Discussion

“Mainstreaming Disaster Waste Management to develop policy/guideline”

[Points of discussion]

1. What motivates (motivated) the development of guidelines?
2. How should a DWM guideline look like to ensure effective DWM?
3. How can governments motivate and enable local actors to implement guidelines?

[Resource persons for discussion]
